

**HONOR ROLL**  
YEARS  
ON THE LIST

Dr. Augustin | 2

## Jeffrey F. Augustin, MD

“My mission is to enable people to enjoy active lives at the level they want for as long as they want,” says board-certified orthopedic surgeon Dr. Jeffrey Augustin. With two state-of-the-art locations, he specializes in arthroscopic and minimally-invasive surgeries, including knee and shoulder reconstruction, joint replacement and repair of sports-related injuries including ACL and rotator cuff repair. Dr. Augustin treats all patients—from injured high school and college athletes to active seniors with arthritis—as unique cases, taking the time necessary to understand what’s important to them, and what their goals for recovery are. He then works with the patient to create a treatment plan to help them meet those goals. “One of the things I am most proud of,” he says, “is the number of patients who refer others. They trust us to give their friends and family the best possible care, and we won’t let them down.”

In order to stay on the cutting-edge of his

field, Dr. Augustin attends several professional workshops each year to investigate promising techniques that might benefit his patients. In addition to a full range of both surgical and non-surgical orthopedic services, the Bayonne office also offers on-site physical therapy, creating a continuity of care throughout treatment that improves patient outcomes.
